Where do I even begin? This band made such a huge impact on the day of our wedding! The dance floor was full from the first song, up until the end. They play a huge range of music from all eras so everyone is entertained. We loved how the band walked through the crowd and the atmosphere was electric! The energy they gave our friends and family thrived from. Everyone I've spoken to about our wedding comments on how amazing they were. I cannot wait for another big family event so we can book again! If you're looking for a band for a function I promise you they will not disappoint. Thank you to all of the band for being simply awesome!
